ECHOES of the ORIENT: The Writings of William Quan Judge

Compiled by Dara Eklund

Echoes are heard in every age of a timeless path that leads to divine wisdom and knowledge of our purpose in the universal design. Today's resurgent awareness of our physical and spiritual interdependence affirms those pioneering keynotes set forth in the writings of H. P. Blavatsky (see pp. 3-10). Her task was to represent the broad panorama of the "anciently universal Wisdom-Religion," to show its underlying expression in the world's myths, legends, and spiritual traditions, and to show its scientific basis — with the overarching goal of furthering the cause of universal brotherhood.

Some have found HPB's books difficult and ask for something simpler. The writings of William Q. Judge, a co-founder of the Theosophical Society and close personal friend of HPB, help fill this need. His *Ocean of Theosophy* and *Letters That Have Helped Me* (see pp. 12-13) remain classics in the literature, describing in clear language the basic ideas of the wisdom-tradition and its path of spiritual quest. Yet the greater part of Judge's literary output is to be found in his magazine articles and other writings gathered together here in *Echoes of the Orient*.

Volume I comprises about 170 articles from *The Path* magazine, founded and edited by Judge. These are chronologically arranged and supplemented by his popular "Occult Tales." Also included are a well-documented 50-page biography, numerous illustrations, photographs, and facsimiles.

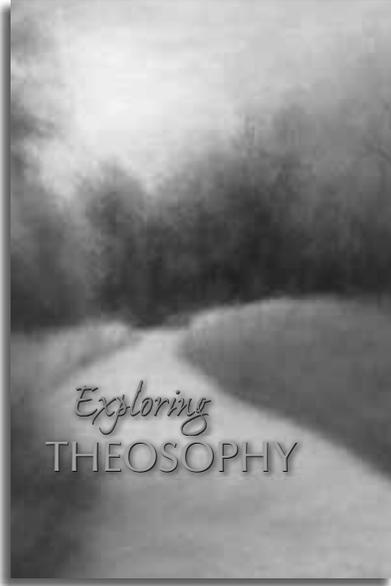

Volume II comprises Judge's "Hidden Hints in *The Secret Doctrine*," his lectures at the World's Parliament of Religions, articles and replies to questions in other magazines, and "Faces of Friends" who were actively helping the Theosophical Society in Judge's time.

Volume III contains tracts and pamphlets, newspaper and journal articles, miscellaneous articles and extracts, and "Suggestions and Aids" to fellow travelers on the Path.

Grace F. Knoche

Written with directness and warmth, this book shares a universal perspective on the central questions of human existence, while providing practical insights on daily living and spiritual growth. In so doing she suggests how we can live with dignity, purpose, and compassion, whatever our circumstances.

ISIS UNVEILED

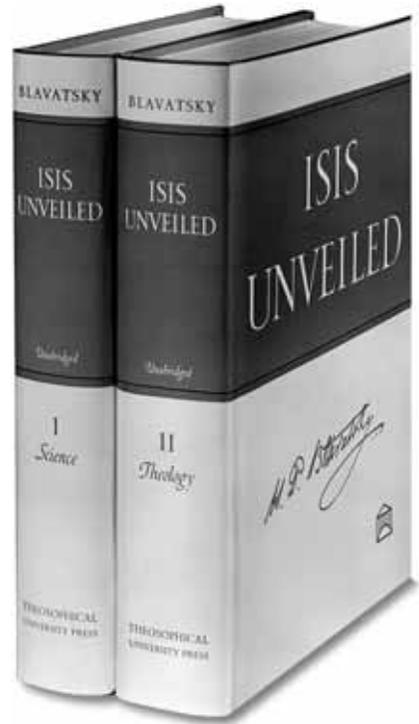

H. P. Blavatsky

One of the most remarkable productions of the century. — NEW YORK HERALD, 1877

H. P. Blavatsky's first major literary effort, a critical response to the growing materialism in both scientific and religious institutions, is a vindication of mankind's ageless quest. In the author's words, *Isis* "is the fruit of a somewhat intimate acquaintance with Eastern adepts and study of their science. . . . They showed us that by combining science with religion, the existence of God and immortality of man's spirit may be demonstrated." Supported by extensive evidence from religious and mystical traditions, classical scholarship, and the testimony of nature, these volumes aid the student in detecting the vital principles underlying the philosophical systems of old.

Volume I focuses on the scientific theories prevailing at the time, balanced against the "anciently universal Wisdom-Religion," while Volume II examines the creeds of religions past and present, alongside the myths and symbols of various cultures. Throughout, the author strikes at the root of dogma and affirms the "paramount importance of re-establishing the Hermetic philosophy in a world which blindly believes it has outgrown it."

This edition also includes two articles by H. P. Blavatsky on the writing of *Isis Unveiled*: "My Books" (1891) and "Theories About Reincarnation and Spirits" (1886).

THE SECRET DOCTRINE

The Synthesis of Science, Religion, and Philosophy

H. P. Blavatsky

Continuously in print for over 100 years, the *SD* remains today the most comprehensive sourcebook of the esoteric tradition, outlining the fundamental tenets of the “Secret Doctrine of the Archaic Ages.” Challenging, prophetic, and strikingly modern, it directly addresses the perennial questions: continuity of life after death, the purpose of existence, good and evil, consciousness and substance, sexuality, karma, evolution, and human and planetary transformation.

Based on the ancient Stanzas of Dzyan (with corroborating testimony from over 1,200 sources), these volumes unfold the drama of cosmic and human evolution — from the reawakening of the gods after a “Night of the Universe” to the ultimate reunion of cosmos with its divine source. Supplementary sections discuss both relevant scientific issues and the mystery language of myths, symbols, and allegories, helping the reader decipher the often abstruse imagery of the world’s sacred literature.

THE SECRET DOCTRINE: INDEX

Prepared by John P. Van Mater

Part of the Secret Doctrine Centenary project, this companion volume is as much an index of ideas as it is of subjects, works, persons, and proper names. Major subject entries are cross-referenced; foreign terms identified by language and, where possible, given in both their 1888 spellings and as modernly transliterated, often with one or two word definitions. Cited works and authors, whose titles or names are not given in the *SD*, are placed in brackets for convenient identification. Includes an Appendix of foreign phrases with translation and source reference.

SECRET DOCTRINE COMMENTARY: Stanzas I–IV Transactions of the Blavatsky Lodge

H. P. Blavatsky

In response to the demand for further light on the Stanzas of Dzyan, H. P. Blavatsky answered a variety of questions at weekly meetings of the Blavatsky Lodge of the TS in London. Her replies illumine many important facets of the teachings that are often difficult for students and inquirers.

The discussions cover the first four stanzas of Volume I and treat such topics as cosmic genesis, universal mind, man's inner nature, the relation between consciousness and substance, religious symbolism, and the evolution of worlds and men. Of particular interest is a section on dreams.

An Invitation to THE SECRET DOCTRINE

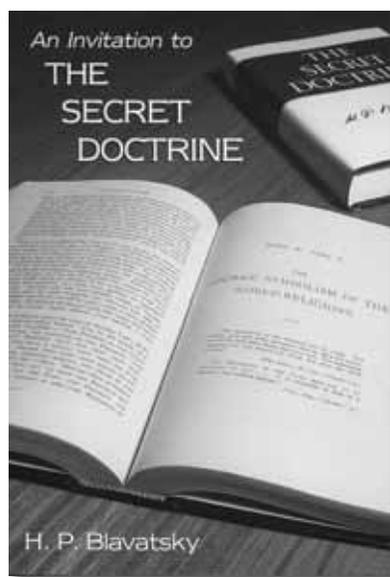

To those who would like to explore the essence of the *SD*, or who have had difficulty penetrating its two large volumes, *An Invitation to The Secret Doctrine* should prove welcome. Based on Blavatsky's study suggestions given to her personal students, it is a succinct and appealing statement of the *SD*'s principal teachings in her own words. Included are the Bowen notes of HPB's comments, relevant pages from *The Secret Doctrine*, photographs of HPB's manuscript, a historical account of "The Writing of *The Secret Doctrine*" by Kirby Van Mater, and a glossary of terms.

THE VOICE OF THE SILENCE

H. P. Blavatsky

I believe that this book has strongly influenced many sincere seekers and aspirants to the wisdom and compassion of the Bodhisattva Path.

— 14TH DALAI LAMA

Translated from the Book of the Golden Precepts, which shares a common origin with the Stanzas of Dzyan of *The Secret Doctrine*, the rules and ethics presented in the *Voice* contrast the two paths of spiritual attainment: the one pursued by those seeking knowledge for their own enlightenment; the other chosen by those whose aspirations are prompted by compassion for all.

THE KEY TO THEOSOPHY

H. P. Blavatsky

Written in the form of question and answer, *The Key to Theosophy* is an excellent introduction for the inquirer. After the publication of *Isis Unveiled* and *The Secret Doctrine*, the author was deluged with questions about the human constitution, spiritual and psychological; the mysteries of periodic rebirths; and the difference between fate, destiny, free will, and karma. These and many other questions on the theosophical philosophy are answered simply and directly.

The work is enhanced by a 60-page glossary of philosophical terms drawn from Sanskrit, Hebrew, and classical literature.

STUDIES IN OCCULTISM

H. P. Blavatsky

OCCULTISM (from the Latin *occultus*, meaning “hid”) as presented here refers primarily to the esoteric theosophy concealed in religion and nature. In this series of articles, H. P. Blavatsky clarifies the “essential difference between theoretical and practical Occultism,” and the gulf that separates the potentially harmful occult arts from genuine occultism, the path of altruism. Included is a three-part article on “The Esoteric Character of the Gospels” which casts light on the mystery of Jesus — as man and as Christ — and also upon the succession of messianic ages.

H. P. BLAVATSKY TO THE AMERICAN CONVENTIONS: 1888–1891

H. P. BLAVATSKY and the SPR An Examination of the Hodgson Report of 1885

Vernon Harrison, Ph.D.

In December 1885 the Society for Psychical Research (SPR) in London, England, published a 200-page report by Richard Hodgson. The report is perhaps best known for its denunciation of H. P. Blavatsky as an "impostor," and is often quoted in encyclopedias, reference books, and biographical works.

In April 1986 the *SPR Journal*, "in the interests of truth and fair play," published a critical analysis of the Hodgson Report by handwriting expert Vernon Harrison, who found it "riddled with slanted statements, conjectures advanced as fact or probable fact, uncorroborated testimony of unnamed witnesses, selection of evidence and downright falsity."

Dr. Harrison, a professional examiner of questioned documents, continued his research, including a line-by-line examination of 1,323 color slides of the Mahatma Letters, and in a second monograph (1997) concluded that "the Hodgson Report is even worse than I had thought." *H. P. Blavatsky and the SPR* combines both of Dr. Harrison's papers together with his Opinion, Replies to Criticism, formal Affidavit, and 13 full-color plates of sample pages from the Mahatma and Blavatsky letters.

H.P.B.: The Extraordinary Life and Influence of Helena Blavatsky

Sylvia Cranston

In her quest for truth and universal brotherhood, HPB opened a new realm of ideas to the world, influencing poets, writers, artists, philosophers, and scientists alike — among them Yeats, James Joyce, L. Frank Baum, Kandinsky, Mondrian, Scriabin, Gandhi, William James, Thomas Edison, and Einstein. Social historian Theodore Roszak ranks her “among the modern world’s trailblazing psychologists of the visionary mind.”

A product of 14 years’ research and writing, “this book portrays HPB’s supporters and detractors, using newly uncovered materials to present as complete a biography of this enigmatic woman and her wisdom as possible” (*Booklist*, American Library Association).

H. P. BLAVATSKY AND THE THEOSOPHICAL MOVEMENT

Charles J. Ryan

... some day, if not at once, the loftiness and purity of her aims, the wisdom and scope of her teachings, will be recognized more fully, and her memory will be accorded the honor to which it is justly entitled.

— Editorial, *New York Daily Tribune*, May 10, 1891

This well-researched portrayal of HPB’s life and work also covers the years following her death on May 8, 1891, and the efforts of theosophists to carry the movement into the twentieth century. Combining primary source material with concise narrative, Professor Ryan has crafted a penetrating synthesis of history and philosophy which reveals the impact of spiritual truths on humanity’s thought-life. *2nd and Revised Edition*

THE LETTERS OF H. P. BLAVATSKY TO A. P. SINNETT

Transcribed and compiled by A. Trevor Barker

A companion volume to *The Mahatma Letters* (see facing page), this correspondence from the 1880s is a profoundly moving documentary of H. P. Blavatsky's life and character. In the words of A. Trevor Barker:

The reader is therefore left to form his own conclusions as to whether the heroic figure which stands out so vividly in these pages was . . . what she claimed to be — no medium indeed, but the conscious Agent of the Masters who sent her forth, performing her prodigious task under conditions which would make the bravest halt; an occultist pledged to silence as to the true reasons for most of her actions, ever fearful of giving out too much, but yet through it all labouring so fiercely and wholeheartedly. — pp. vii-viii

Helena Petrovna Blavatsky was born on August 12, 1831, at Dnepropetrovsk (Ekaterinoslav), Ukraine, daughter of Colonel Peter Alexeyevich von Hahn and novelist Helena Andreyevna (née de Fadeyev). In 1849 she married N. V. Blavatsky, and shortly thereafter began more than 20 years of extensive travel, which brought her into contact with mystic traditions the world over. She was the principal founder of the Theosophical Society in New York City in 1875, and devoted her extraordinary literary talents to its humanitarian and educational purposes until her death in London, England, on May 8, 1891.

Along with writing her several books, H. P. Blavatsky kept up a voluminous correspondence and also contributed a steady stream of essays and articles to periodicals in English, French, and Russian. Fourteen volumes of her *Collected Writings* are now in print plus a Cumulative Index; compiled by Boris de Zirkoff through Vol. XII; completed after his death in 1981 by Dara Eklund (see page 31).

THE MAHATMA LETTERS TO A. P. SINNETT

Transcribed and compiled by A. Trevor Barker

No other book is quite like this private collection of letters. Preserved in the British Library, they were written between 1880 and 1884 to Alfred P. Sinnett, editor of a leading Anglo-Indian newspaper, *The Pioneer*. His correspondents were two Mahatmas whom H. P. Blavatsky has acknowledged as her teachers and the inspirers of her *Isis Unveiled* and *The Secret Doctrine*.

First published in 1923, this important volume is filled with sublime philosophical and ethical instruction, revealing not only far-reaching concepts of religious and scientific thought (since proven in large degree prophetic), but also practicality, warmth of heart, patience, and ripeness of humor. The letters, moreover, yield a clearer understanding of H. P. Blavatsky and of the Mahatmas' aim in fostering a real universal fraternity.

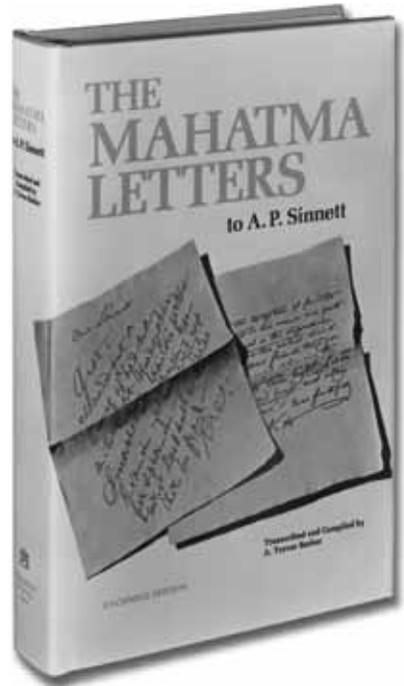

The term "Universal Brotherhood" is no idle phrase. Humanity in the mass has a paramount claim upon us, . . . If it be a dream, it is at least a noble one for mankind: and it is the aspiration of the true adept. — p. 17

In the early 1890s Judge recognized the need for a book on theosophy that could be readily understood by all. The *Ocean* provides a concise yet comprehensive survey of the basic tenets of theosophy. Written with the beginner in mind, it clarifies such topics as the sevenfold nature of man, reincarnation and karma, dangers of psychic practices and the pitfalls of pseudo-occultism, earth's sevenfold being, cosmic and terrestrial cycles, afterdeath states, the existence of highly advanced human beings, and many more. Blavatsky and Henry S. Olcott of the Theosophical Society in 1875, he later became General Secretary of its American Section and Vice President of the international Society. LETTERS THAT HAVE HELPED ME

William Q. Judge

The warmth and humanity of this collection of Judge's letters has inspired many seekers on the Path. In clear, compelling language, the author shows that in our search for spirit, the need is not to escape the world but to help transform it — through our constant effort to be compassionate, resolute, and wise in daily life.

What then is the panacea finally, the royal talisman? It is Duty, Selflessness. Duty persistently followed is the highest yoga, and is better than mantrams or any posture, or any other thing. If you can do no more than duty it will bring you to the goal. — 2:3

BHAGAVAD-GITA combined with ESSAYS ON THE GITA

The *Bhagavad-Gītā* is probably the most influential work India has produced. In the form of a dialogue between its hero Arjuna and the avatāra Krishna, this Hindu classic is an allegory of Man in his evolutionary development — a searching look at the “field of dharma.”

In 1890, responding to many requests for a nonacademic exposition of the *Gītā*, William Q. Judge published the present edition, and also wrote several illuminating essays on the *Gītā*. These essays, issued together with his recension, make this volume unique among the many renditions of this ancient classic currently available.

DHAMMAPADA

Wisdom of the Buddha

Translated by Harischandra Kaviratna

The *Dhammapada*, long perpetuated through oral tradition, is a synthesis of the Buddha's ethical teachings. This English translation by noted Sinhalese pandit Harischandra Kaviratna, with the original Pāli text (in roman script) on facing pages, was produced after comparison with Sanskrit, Burmese, and Chinese versions. A glossary of Pāli philosophical terms with Sanskrit equivalents and English definitions is included. In a valuable introduction, Dr. Kaviratna discusses the history of the *Dhammapada* and its place in the Buddhist canon together with its relation to the Vedas and Brahmanical literature.

THE GODS AWAIT

Katherine Tingley

Thought-provoking and inspiring, *The Gods Await* applies theosophic principles to human life and thought, emphasizing remedies for “man’s inhumanity to man.” It discusses freedom of ideas, world peace, and reformation of the criminal justice system — setting forth the problems with their root-causes and possible solutions.

Speaking to the intuition as well as the intellect, the author encourages us to recognize our duality and look to the spiritual center within, then act fearlessly — for “there is always another chance,” no matter what our apparent failures. Here is a plea for social action and individual renewal based on self-knowledge, compassion, and the innate divinity of mankind.

Katherine Tingley (1847–1929)

During her leadership of the Theosophical Society (1896–1929), Katherine Tingley made universal brotherhood the focus of her wideranging activities. THEOSOPHY: THE PATH OF THE MYSTIC

Katherine Tingley

Katherine Tingley appeals to the heart in simple, direct language, emphasizing the dignity of the individual and the power within each person to shape his own character and life. To her, theosophy is a practical and inspirational philosophy for daily living.

This book is compiled from talks and writings on theosophy and its applicability to living the mystic life, to education, prison reform, and the problems of society and human relationships. KT's great objective throughout the varied activities she undertook was to make theosophy "immensely serviceable" to all.

Never can we reach that point of spiritual discernment until we have found within our own hearts something new: a larger sympathy for all that lives, and a broader, deeper, grander conception of human life and the superb laws that govern it.

Katherine Tingley was born July 6, 1847, in Newbury, Massachusetts. Reared in an atmosphere of culture, she felt a profound sympathy for the victims of poverty, misery, and war, and worked all her life to alleviate suffering. In 1893 she met William Q. Judge who introduced her to theosophy. Soon she knew that here was a philosophy which, if practiced, could lighten the burdens of humanity. Mrs. Tingley and Judge became coworkers, and upon his death in March 1896 she succeeded him as head of the Theosophical Society. In 1900 she moved its international headquarters to Point Loma, California, where she continued her humanitarian efforts and founded the Rāja-Yoga School, Academy, and College, and Theosophical University. She lectured extensively in the US and abroad until her death at Visingsö, Sweden on July 11, 1929.

FUNDAMENTALS OF THE ESOTERIC PHILOSOPHY

G. de Purucker

From 1924 to 1927 Katherine Tingley sponsored a series of private studies in *The Secret Doctrine*, with Dr. de Purucker as lecturer. This record of the meetings provides an excellent introduction to H. P. Blavatsky's masterwork, yet it stands on its own as a clear restatement of the philosophy expounded by all great thinkers and sages.

Beginning with the three fundamental postulates of the *SD*, the presentation moves to cosmic and human evolution, with emphasis on the interconnectedness of all beings. Other topics include man's nature and destiny; avatāras and buddhas; initiation, the Mysteries, and ethical values.

FOUNTAIN-SOURCE OF OCCULTISM

G. de Purucker

Derived from twelve booklets of instruction to private students, *Fountain-Source* restores occultism to its original purity and recreates the atmosphere and discipline of the ancient Mystery schools. The scope of teaching is vast: the primeval wisdom-teaching; discipline and the spiritual path; the genesis, structure and destiny of galaxies and solar systems; correlations of cosmic and human constitutions; death and the circulations of the cosmos; and invisible worlds and their inhabitants. Addressed to all who sense the interrelatedness of human destiny with the cosmic design, and feel the call of altruistic service to humanity.

SUNRISE Special Issue: Gottfried de Purucker (1874–1942)

Portraying the man, his work as teacher, and his leadership of The Theosophical Society (1929–1942), this issue includes biographical and historical essays, excerpts from his writings and speeches, and reactions and assessments from both his own time and today. An excellent introduction to one of the preeminent interpreters of modern theosophy and the perennial wisdom.

\$6.00 paper, 6 x 9, 80 pages, 15 photographs

G. de Purucker was born on January 15, 1874, at Suffern, New York, son of an Anglican minister. In preparation for the ministry he specialized in Hebrew, Latin, Greek, and the writings of the early Church Fathers. However, study of Eastern philosophies and Sanskrit led him to theosophy with its broad comprehension of religion, philosophy, and science. After working closely with Katherine Tingley, he succeeded her as head of The Theosophical Society from 1929 until his death on September 27, 1942. Perhaps his greatest contribution to spiritual thought was his elucidation of the writings of H. P. Blavatsky.

THE PATH OF COMPASSION

G. de Purucker

Time-honored rules of ethical and spiritual conduct are presented along with warnings against pitfalls of psychic development. There is no shortcut to wisdom, no instant enlightenment, for inner unfolding cannot be induced artificially. While the path toward conscious union with our inner divinity demands the utmost devotion, fidelity, and perseverance, it is also “bright with joy, and lighted with the fires of the spirit.” This book reproduces the first two sections of *Fountain-Source of Occultism* (see p. 19), so that the seeker may have readily to hand an inspired vision of the path before him.

THE FOUR SACRED SEASONS

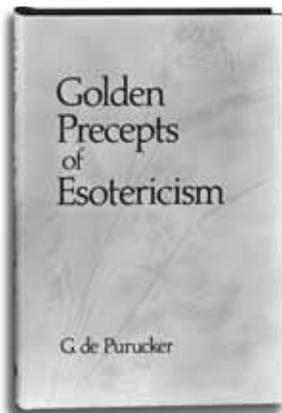

G. de Purucker

The solstices and equinoxes have been held sacred in many cultures. This book explains the cosmic and human symbolism associated with the earth's annual cycling round the sun, and the great initiatory events which take place at these seasons. Key teachings on buddhas and avatāras, death and initiation, and the two paths of growth — for oneself and for others — illumine not only the traditions of mankind, but also the road which the aspirant daily seeks to tread.

GOLDEN PRECEPTS OF ESOTERICISM

G. de Purucker

Drawn from the author's talks with students, *Golden Precepts* covers a variety of subjects: the inner god; thoughts, their influence on character, and how they can be controlled; how to meet suffering, old age, and death; the need for selfless love; buddhas of compassion; and the path of spiritual growth.

In proportion as you ally yourself with your own inner god, with the fountain of divinity which is constantly pouring through your own inner being, does your consciousness ascend and expand in power and reach, so that with inner growth comes expanding vision on the one hand and the expanding consciousness to interpret that vision on the other hand. — p. 16

WIND OF THE SPIRIT

G. de Purucker

Wind of the Spirit makes a powerful appeal to each of us to seek our own inspired vision to live by. The author shows how the winds of change are coursing through world consciousness, tearing away deadwood and making room for new growth. Nearly a hundred articles examine such topics as the secret of human conflict, guarding our thoughts, common sense in the home, prayer and aspiration, soul loss and insincerity, predestination, help from the gods, and three stages of visioning truth. This is a practical book, helpful for the beginner, while the longtime student will benefit from a fresh view of basic principles.

OCCULT GLOSSARY

A Compendium of Oriental and Theosophical Terms

G. de Purucker

Every branch of study has its special terminology, and theosophy is no exception. Originally published in London in 1933, this Glossary defines some 300 terms frequently found in the field of metaphysics and explains them in the light of theosophy. An invaluable textbook for the student, the Glossary is a succinct and reliable aid in discerning the occult or “hidden” meaning of many Sanskrit, Greek, and technical terms used in theosophical literature.

MAN IN EVOLUTION

G. de Purucker

This work will appeal to those who question Darwinist theories or find untenable the customary theological dogmas of human origin. Analyzing theosophical doctrines of evolution in relation to scientific fact, the author shows that “man is his own history” — physically the repository of all stocks below him; spiritually an “intelligent agency” motivating and working through all forms towards evolutionary perfection.

This edition contains appendices by Charles J. Ryan and Blair A. Moffett which compare findings of the physical and life sciences with theosophic thought.

EVOLUTION & CREATION: A Theosophic Synthesis

W. T. S. Thackara

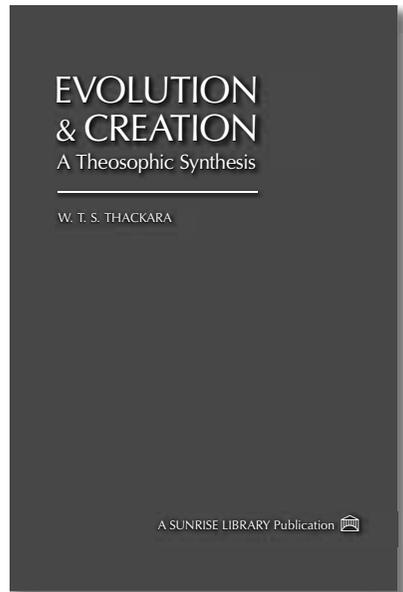

Addressing the controversial question, "Is the universe intelligently designed?" this introductory booklet surveys critical problems in Darwinian theory and creationist theology: organic complexity and the origin of life; the relationship of consciousness and matter; who or what is God; design, disparity, and imperfection; and the origin and evolution of man. The discussion reexamines these issues in light of modern scientific research and basic theosophic concepts underlying the world's religious traditions — suggesting there is a middle ground reconciling spiritual intuition and scientific knowledge.

EXPANDING HORIZONS

James A. Long

Widely used as an introduction to theosophy, this book features short essays and roundtable talks with varying age-groups. Here in refreshingly simple language is a re-presentation of “primeval spiritual ideas” distilled from the treasury of ancient tradition, the “god-wisdom” or theosophia inspiring every great religion.

Rather than providing ready-made answers to the problems of life, *Expanding Horizons* presents practical insights on those basic questions which go to the root of the human predicament.

While there he was sent as an Advisor to the US Delegation to the United Nations at the opening of the Second Session in 1946.

Mr. Long joined The Theosophical Society in 1935 and in 1939 became business manager of its American Section. He worked closely with Arthur L. Grace F. Knoche was born February 15, 1909 at the international headquarters of The Theosophical Society, then at Point Loma, California. There she attended the schools founded by Katherine Tingley, receiving a PhD from Theosophical University in 1944. In the 1930s and '40s she worked on the headquarters staff in the Press and in the secretarial and editorial departments. She also taught violin, Greek, Sanskrit, and Hebrew at Theosophical University, and painting and sculpture to younger students at the Lomaland School.

After serving as private secretary to two leaders of The Theosophical Society, Colonel Arthur Conger and James A. Long, in 1971 she became leader of the Society and editor of *Sunrise* magazine. Ms. Knoche passed away on February 18, 2006.

THE MYSTERY SCHOOLS

Grace F. Knoche

Behind the world's religions, philosophies, and sciences lies the hidden source of humanity's inner life and spiritual sustenance. Through the intellectual awakening of infant mankind millions of years ago, to the subsequent misuse of knowledge which led to the foundation of Mystery colleges by great sages and seers, *The Mystery Schools* traces this movement back to the earliest times. It describes the role of the brotherhood of adepts in discovering, disseminating, and preserving the truths of nature and man, and discusses the purposes and methods of the Mysteries, the pattern of esotericism, routes of initiation, and the Mystery schools today.

THEOSOPHY in the QABBĀLĀH

Grace F. Knoche

What are the essential teachings of Qabbālāh, the Jewish esoteric wisdom passed on for millennia from teacher to pupil? In this clear presentation, Grace F. Knoche concentrates on principal Qabbalistic themes: the emanation of the universe, the Sēfirōthal Tree of Life and its cosmic and human symbology, the Four Worlds of creation, the Four Adams or Heavenly Archetypes, and the composite structure of our being and its bearing on sleep, death, and initiation. To elucidate their meaning, the author compares Qabbalistic concepts and symbols with equivalents in modern theosophy, particularly in the works of H. P. Blavatsky and G. de Purucker, revealing Qabbālāh as one stream of the universal wisdom tradition of mankind.

This imaginative reworking of the Welsh *Mabinogion* and other legends tells the story of Manawyddan, who is given the choice between immortality with the gods or preventing a new evil from destroying the Island of the Mighty. “*Book of the Three Dragons* is perhaps the single best fantasy adaptation from a real-world mythology, and the best of his tales” (John Rateliff, Wizards.com). Features the author’s never-before-published ending amounting to one-third of the book’s length.

Morris is an inspired, original writer in touch with the mythic wellsprings of the fantastic imagination . . . the greater achievement of his writing is the wedding of this lilting, varied prose with philosophical depth and an active share of wonder woven from the history, myth and legends.

About Theosophical University Press

In April 1886, eleven years after the founding of the Theosophical Society in New York City, William Q. Judge began publication of *The Path* magazine. Three years later a printing press was purchased for the production of additional magazines, books, and pamphlets and, shortly before he died in March 1896, Judge renamed the facility Theosophical Publishing Company. In 1900 his successor, Katherine Tingley, transferred the Society's world headquarters and its publishing operations from New York to Point Loma, California, where a school, academy, and college were established. New printing equipment was purchased and, under the guidance of European and American printers and artists, high quality books, monographs, and magazines in English and other languages were issued.

In 1919 Katherine Tingley founded Theosophical University and ten years later, under G. de Purucker's direction, the Society's publishing activity acquired its present name. During World War II, the international headquarters of the Theosophical Society and its publishing facility moved to Covina, California, and in 1951 to the Pasadena area. Today, modernly equipped, TUP maintains the objectives and standards of production established over one hundred years ago: publication of quality theosophical literature.

Bookmaking at TUP: As works on theosophy often become lifelong companions, TUP makes every effort to produce books that are readable and durable, yet reasonably priced. Special care is given to the selection of attractive typefaces and acid-free paper with a nonglare surface for comfortable reading. Our softcover books (in Kivar or Lexotone) combine paperback economy with hardback durability.

TUP Titles in Other Languages: Many TUP titles are published in Dutch-, German-, Spanish-, and Swedish-language editions. Catalogs and/or booklists are available from the respective TUP agency listed below. (If in USA, write to TUP Pasadena.)
